JOB

MANAGE

Why will you **NEED** it?

It has internal modules connected with one another provide for a smooth transition of data (data import and export) from one piece of functionality to the next, which eliminates the need for double-entry.

Convert a quote into an order, which is sent down to a shipyard to begin the fulfilment process.

Avoid missing payments by easily tracking paid and unpaid invoices from all the orders.

Moving all shipping information via an electronic system will also help keep your data secure and stored safely.

Keeping it **DIGITAL**

NO PAPER WORK

NO REVISED BILLS

**NO PILING OF
DOCUMENTS**

ZERO PROCESSING FEE

EXTENSIVE AND DETAILED EVENT ENGINE

ALERTS & NOTIFICATIONS IN SYSTEM AND VIA EMAILS

SPECIFIC USER MANAGEMENT

PERMISSION MANAGEMENT FOR HANDLING SENSITIVE DATA
